PRESS RELEASE

TERRAIN TAMER FILTERS TRAVEL IN PACKS

4WD brand 'Terrain Tamer', has released an innovative range of filter kits for their most prominent range of Toyota and Nissan vehicles. Terrain Tamer filter kits, featuring all required oil, air and fuel filters, simplify the ordering process to the trade and provide the 4WD owner with a simple pack to carry when travelling to any remote areas.

"The response to our range of 4WD strength filters has been overwhelming. Our customers appreciate the extra strength that is needed in the environments that only 4WD drivers find themselves in. Our range of filter kits has been a natural progression to supply our customers with what is easy and simple for them." States Terrain Tamer General Manager, Jim Dean.

"The real benefit of such a product is the fact any owner can know what filter pack he needs and can simply store them for when he needs them most. The experienced 4WD driver knows what it is like to be stuck, hours away from help waiting for such a simple part. Now a small insurance is available" adds Mr Dean.

The range began with our fastest moving Toyota and Nissan vehicles but is expanding rapidly.

Terrain Tamer Filters are available from Don Kyatt Spare Parts and a number Stockists that can be found at terraintamer.com
